

General Information Fact Sheet

ABOUT PROSTHETIC ART TECHNOLOGY

Prosthetic Art Technology provides high quality prosthetic rehabilitation. We specialise in restoration of the face and body. Our prostheses are one-of-a-kind, tailored for each individual with the utmost care.

Our custom crafted prostheses restore human anatomy and help reshape lives. We pay great attention to perfecting every detail, from skin tone to eyelash, right down to the nearest freckle.

Our anaplastology clinics provide life-like prosthetic rehabilitation for the face and some parts of the body. These types of prostheses are custom made appliances designed to restore a missing or malformed external part of the body that cannot be reconstructed or repaired surgically.

Our aim is to provide person-centred, aesthetically excellent and clinically sound prostheses. We enjoy a multidisciplinary team approach to give prosthetic outcomes that are tailored to each person's anatomy and goals.

CLIENTS

Clients of Prosthetic Art Technology fall into one of the following categories:

- NDIS Participant;
- private self-funded client;
- public-funded clients through certain Local Health Districts;
- Private health insurance clients;
- Clients covered by WorkCover; and
- DVA-funded clients.

WHAT IF THERE'S AN ISSUE?

In the first instance, the Client should contact Sophie Fleming, Anaplastologist:

- by phone on 0416 280 861;
- by email admin@prostheticarttech.com; or
- by mail: Prosthetic Art Technology,
2/2 High Street
ALSTONVILLE NSW 2477

By contacting us we will be able to work through the available options and recommend the best one for you.
